## Preface

These proceedings gather the selected papers of the Advanced Concepts for Intelligent Vision Systems (ACIVS) conference which was held in Lecce, Italy, during October 24–27, 2016.

This event was the 17th ACIVS. Since the first event in Germany in 1999, ACIVS has become a larger and independent scientific conference. However, the seminal distinctive governance rules have been maintained:

- To update the conference scope on a yearly basis. While keeping a technical backbone (the classic low-level image processing techniques), we have introduced topics of interest such as – chronologically – image and video compression, 3D, security and forensics, and evaluation methodologies, in order to fit the conference scope to our scientific community’s needs. In addition, speakers usually give invited talks on hot issues.
- To remain a single-track conference in order to promote scientific exchanges among the audience.
- To grant oral presentations a duration of 25 minutes and published papers a length of 12 pages, which is significantly different from most other conferences.

The second and third items entail a complex management of the conference; in particular, the number of time slots is rather small. Although the selection between the two presentation formats is primarily determined by the need to compose a well-balanced program, papers presented during plenary and poster sessions enjoy the same importance and publication format.

The first item is strengthened by the notoriety of ACIVS, which has been growing over the years: official Springer records show a cumulated number of downloads on July 1, 2016, of more than 440,000 (for ACIVS 2005–2015 only).

The regular sessions also included a couple of invited talks by Professor Andrea Cavallaro (Queen Mary University of London, UK), Professor Thomas B. Moeslund (Aalborg University, Denmark), Professor François Brémont (Inria, France), and Professor Sebastiano Battiato (Catania University, Italy). We would like to thank all of them for enhancing the technical program with their presentations.

ACIVS attracted submissions from many different countries, mostly from Europe, but also from the rest of the world: Algeria, Australia, Austria, Brazil, Belgium, Canada, China, Cyprus, Czech Republic, Denmark, Ecuador, France, Finland, Germany, Hungary, India, Israel, Italy, Korea, Mexico, The Netherlands, Poland, Romania, Russia, Switzerland, Taiwan, Tunisia, Turkey, the Ukraine, United Arab Emirates, the UK, and the USA.

From 137 submissions, 36 were selected for oral presentation and 28 as posters. The paper submission and review procedure was carried out electronically and a minimum of three reviewers were assigned to each paper. A large and energetic Program Committee (87 people), helped by additional reviewers (95 people in total), as listed on the following pages, completed the long and demanding reviewing process. We would like to thank all

of them for their timely and high-quality reviews, achieved in quite a short time and during the summer holidays.

Also, we would like to thank our sponsors (in alphabetical order) Antwerp University, Commonwealth Scientific and Industrial Research Organization (CSIRO), Ghent University, Institute of Applied Sciences and Intelligent Systems (ISASI), and the National Research Council (CNR) of Italy for their valuable support.

Finally, we would like to thank all the participants who trusted in our ability to organize this conference for the 17th time. We hope they attended a different and stimulating scientific event and that they enjoyed the atmosphere of the ACIVS social events in the city of Lecce.

As mentioned, a conference like ACIVS would not be feasible without the concerted effort of many people and the support of various institutions. We are indebted to the local organizers Marco Leo, Pier Luigi Mazzeo, Paolo Spagnolo, Pierluigi Carcagnì, and Marco Del Coco, for having smoothed all the harsh practical details of an event venue, and we hope to welcome them in the near future.

July 2016

# Organization

Acivs 2016 was organized by the University of Salento, located in Lecce, Italy.

## Steering Committee

Jacques Blanc-Talon	DGA, France
Cosimo Distante	CNR, University of Salento, Italy
Wilfried Philips	Ghent University/iMinds, Belgium
Dan Popescu	CSIRO, Australia
Paul Scheunders	University of Antwerp, Belgium

## Organizing Committee

Pier Luigi Carcagni	Consiglio Nazionale delle Ricerche, Italy
Marco Del Coco	CNR, Italy
Marco Leo	Consiglio Nazionale delle Ricerche, Italy
Pier Luigi Mazzeo	Consiglio Nazionale delle Ricerche, Italy
Paolo Spagnolo	Consiglio Nazionale delle Ricerche, Italy

## Program Committee

Alin Achim	University of Bristol, UK
Sos Agaian	The University of Texas, USA
Hamid Aghajan	Stanford University, USA
Edoardo Ardizzone	University of Palermo, Italy
Atila Baskurt	INSA, France
Sebastiano Battiato	University of Catania, Italy
Fabio Bellavia	Università degli Studi di Palermo, Italy
Jenny Benois-Pineau	Université Bordeaux 1, France
Bir Bhanu	University of California, USA
Philippe Bolon	University of Savoie, France
Egor Bondarev	Technische Universiteit Eindhoven, The Netherlands
Salah Bourennane	Ecole Centrale de Marseille, France
Catarina Brites	Instituto Superior Técnico, Portugal
Alfred M. Bruckstein	Technion IIT, Israel
Vittoria Bruni	University of Rome La Sapienza, Italy
Dumitru Dan Burdescu	University of Craiova, Romania
Tiago Carvalho	Instituto Federal de São Paulo, Campinas, Brazil
Giuseppe Cattaneo	University of Salerno, Italy
Andrea Cavallaro	Queen Mary University of London, UK
Emre Celebi	Louisiana State University, USA
Jocelyn Chanussot	Université de Grenoble Alpes, France
Eric Debreuve	CNRS, France

Frédéric Dufaux	ENST, France
Jean-Luc Dugelay	EURECOM, France
Don Fraser	University of New South Wales, Australia
Toshiaki Fujii	Nagoya University, Japan
Jérôme Gilles	San Diego State University, USA
Georgy Gimel'farb	The University of Auckland, New Zealand
Daniele Giusto	University of Cagliari, Italy
Bart Goossens	Ghent University/iMinds, Belgium
Lewis Griffin	University College, UK
David Helbert	University of Poitiers, France
Michael Hild	Osaka Electro-Communication University, Japan
Mark Holden	Kyoto University, Japan
Kazuhiro Hotta	Meijo University, Japan
Heikki Huttunen	Tampere University of Technology, Finland
Dimitris Iakovidis	University of Thessaly, Greece
Yuji Iwahori	Chubu University, Japan
Arto Kaarna	Lappeenranta University of Technology, Finland
Zoltan Kato	University of Szeged, Hungary
Richard Kleihorst	Senso2Me and Ghent University, Belgium
Ludovic Macaire	Université Lille 1 Sciences et Technologies, France
Xavier Maldague	Université Laval, Canada
Gonzalo Pajares	Universidad Complutense, Spain
Martinsanz	
Takashi Matsuyama	Graduate School of Informatics, Japan
Alfred Mertins	Universität zu Lübeck, Germany
Jean Meunier	Université de Montréal, Canada
Massimo Minervini	IMT School for Advanced Studies, Italy
